## CHATTANOOGA IS SEIZED

### New Jersey Sheriff in Charge of Cruiser.

#### BOILER MAKERS WANT PAY

Troubles of the United States Shipbuilding Company Lead to Serious Complications.

Elizabeth, N. J., June 20.—Sheriff Coriell of Union county is in charge of the United States cruiser Chattanooga, which is now being built at the Crescent shipyards in Elizabeth. The sheriff received a writ of seizure for the vessel, which had been granted by Supreme Court Commissioner John A. Miller on the application of the Babcock & Wilcox company, boiler makers at 85 Liberty street, New York city. The company built six boilers for the war ship. It is said that two-thirds of the contract price, \$600,000, has been paid by the Crescent company, but that the boiler makers have not received the other third and that they have taken this means of compelling payment.

Sheriff Coriell said that he had placed his deputy, Henry J. Schotte, in charge of the Chattanooga and would keep him at the Crescent yard unless he received orders from some higher authority to withdraw him. The sheriff said that he had simply performed his duty in seizing the vessel in accordance with the writ issued by the supreme court commissioner and that he knew nothing about the merits of the case.

#### BARBERS UNDER DISCUSSION.

State Board of Health Considers the Sanitary Conditions.

Burlington, June 19.—The closing session of the health officers' school today was taken up principally with a discussion of barbers. Dr. E. M. Brown of Sheldon read a paper in which he said the barbers' business would be bettered and the sanitary conditions of our state improved if there were enacted rules and regulations that would make these things less possible.

For the accomplishment of the best results we must first educate the barber, second protect him by suitable legislation, and third, regulate and enforce the rules recommended by the different boards of health.

The speaker thought that some power should be vested in the state board of health through legislative enactment, which would require them to formulate rules and regulations to be posted in every barber shop in the state and that the barber be held strictly responsible for careless and uncleanly work, and open their place of business at all times to inspection by state and local boards.

#### NEW FREE DELIVERY ROUTE.

Establishment to Be Resumed At Least 100 Families in a Route.

Washington, June 20.—The postoffice department has resumed the establishment of rural free delivery routes, which were held up on account of the deficit to the appropriation for that service, and a large number of routes will be put into operation July 1, the beginning of the new fiscal year.

The policy of the department hereafter will be to establish routes as rapidly as possible, consistent with the best interests of the service and economic administration. The rule as to the number of families required to be on the route, in order to secure the service, probably will be more strictly adhered to. The rule requires that no service shall be established on a route on which there are less than 100 families.

## A CLOSE BOAT RACE

### Constitution May Win on Time Allowance.

#### A CONTEST TO THE LAST

New Boat Lead by Only a Minute and Fifty Seconds at Finish—Constitution a Formidable Competitor.

New York, June 19.—If the Constitution did not defeat the Reliance, on time allowance in a 25 mile race over the course of the Indian Harbor Yacht club in Long Island Sound today, she gave the admirers of the new boat a bad scare. In more than four hours' sailing the Reliance outlasted her by only one minute and 50 seconds, elapsed time. Experts estimate that the new boat will have to allow the Constitution two to three minutes in a 20 mile race which, if true, might give to the older boat as one of the earlier races when Reliance beat her by two minutes and a fraction.

Columbia was again outclassed from the start. Her gain of about 12 minutes on the second leg of the race was time wasted by the other boats in a luffing match.

Between the leaders the race was hotly contested, first one and then the other getting the better of it by sudden shifts of wind which, when it began to blow steadily left the Reliance about one minute ahead.

The Constitution's fast sailing today was all the more remarkable and makes her all the more formidable from the fact that the race was sailed in light winds and smooth water under which conditions the Reliance has often beaten her.

Railroad Accident at Wardshoro—One Man Injured.

Brattleboro, June 19.—Two freight cars of the southbound mixed train on the Brattleboro & Whitehall railroad jumped the track at Wardshoro yesterday afternoon and were overturned blocking the track.

He was taken to the house of E. M. Butler and a physician was summoned. The accident happened at a curve. A wrecking train was sent from Brattleboro and the track was cleared so that the northbound passenger train was able to pass about 9 o'clock last night.

#### A RUTLAND MAN KILLED.

Rutland, June 19.—Joseph Murray of Grove street, this city, was found dead this morning by the crew of the north bound sleeper, which reached here at 2 o'clock. ## INDULGENCE IN THE CATHOLIC CHURCH

Discussed by Fr. Sutton in His Sermon at St. Monica's Church Last Evening.

The subject "Indulgence in the Catholic Church" was explained by Rev. Fr. Sutton at St. Monica's Church last evening. There is no doctrine of the Catholic church that has been so misrepresented, and brought before the people in a bad and evil light, as the doctrine of indulgence. The definition of indulgence is: A remission in whole or in part of the temporal punishment due to sin. In sin we consider two things, guilt and punishment. Guilt is that state into which we fall when we have been guilty of some crime. A penalty is two-fold, two kinds of punishment, one eternal and the other temporal. When God pardons the guilt of a sin, he always pardons or remits the eternal punishment, when guilt is taken away, then also eternal punishment due to that sin is taken away.

Temporal punishment is not removed. That is poverty, sickness, trouble, labor, etc. Christ has left in his church a greater power to remit guilt of sin, to remove eternal punishment. Eternal punishment is taken away when guilt is remitted, the church in the early days showed that she possessed this power, when she uttered those words of Our Lord, when he addressed the apostles: "Whoever you shall loose on earth, shall be loose in Heaven." Indulgence is just the same as it was in the early days, but as times and manners have entirely changed, the church no longer imposes severe punishments. We have what is called indulgence, there is a 40 days indulgence, and a 7 years. Indulgence refers to sins already pardoned and forgiven. The sin must have already been pardoned before an indulgence is gained. When the guilt and eternal punishment has been taken away, that sin is forgiven.

In order to gain an indulgence a person must be in friendship with God, must do what the church prescribes. Temporal punishment then, cannot be taken away in this life, but in the other world. Eternal punishment may be, but an indulgence can only be gained when the eternal punishment due to sin is taken away, the person must be free from sin.
